We are so very grateful for the amazing support we receive from all of you as donors, volunteers and cheerleaders of the TTCC.

2018 has been a great year for us and we continue to be awed by what an amazing community we live in. Our After School program numbers have increased to an average of 60 youth each day. The Teen Council, under the wonderful leadership of Regina Richard, has double in numbers this year with 38 teens. Last year this group raised $19,000 for our gym renovation which is planned for January & February of 2019. They have implemented new programs such as Parents Night Out, offered the Haunted Basement at Halloween, coached sports teams and come to volunteer in After School. We work closely with the High School and meet weekly with students at school to plan activities and fundraisers. This group has volunteered thousands of hours to run our teen dances, volunteer at all events and make improvements to our building. They are in the process of planning the replacement of the windows in the front of the TTCC.

We are very proud to have been able to bring swim lessons back to the community. With the collaboration of the Town of Bristol we are able to offer lessons at Cummings Beach for six weeks during the summer. This is so important for our kids that live in our lake community.

Our Board held a Strategic Planning Workshop this year and are looking at what we need to do to continue our success. The Board and staff have built strong collaborations in our community and we are so fortunate to have the support of our eight Newfound Towns as well as the Newfound Area School District which allows us access to the school buildings for our many programs. Another major collaboration is with our NH Marathon event. This event is sponsored by the TTCC but the profits support not only our program but the Circle and Mayhew Programs. We are on track to provide over $30,000 in program scholarships to our local kids this year. No child is ever denied access to a program for lack of financial means.

In addition to our field projects this year we also replaced the stairs and railings in the front of the building. The old concrete steps began to crumble and we were able to replace them with granite steps that should last for many years to come.

We are so grateful that you choose the Tapply-Thompson Community Center as an organization to support. We promise you that your donation will make a difference to the youth and families in our Newfound Region.

Thank you for believing in us. We are grateful for you!

TTCC Granite State Track & Field

When we moved to the Bristol/Newfound Area, so many people told us what a great place this is to live and to raise a family. One of those reasons is the Tapply-Thompson Community Center. Whenever I visit there, it's bustling with activity and smiling faces. It's also a great not for profit organization to support!

**Tapply Thompson Community Center is cherished gift in Newfound**

To The Daily Sun,

Friends of Newfound Football recently received a $250 gift from the Lois Dickerman Fund for our participation in N.H. Tackles Hunger. FONF thought it was only right for us to give back to our community. Sandie Pagani, president of FONF, gave Leslie Dion of the TTCC a check from FONF for $250.

The Tapply Thompson Community Center is a cherished gift in our community. On Tuesday and Thursday evenings one can go to the TTCC and find their staff giving a hot meal to many students in our community. This happens without much fanfare. Many people don’t even realize that this goes on. I venture to say that some students may not receive hot meals other than that which they receive on these evenings. It is for this reason that FONF is happy to support the TTCC with this gift.

This would not be possible without the gift that we received from the Lois Dickerman Fund.

Bryan Richardson, Vice-President of Friends of Newfound Football
Organization Description

The TTCC was founded in 1946 by a group of visionary men & women that understood the importance of providing a safe and nurturing environment in which children and families could participate in recreational activities. The building the TTCC is housed in was built in 1890 and serves the community well.

The TTCC currently offers a diversified program of youth activities that include summer day camps, youth sports, after school programs, teen programs and special events. Among the activities offered for adults are basketball, fitness classes, volleyball, badminton, archery, karate and the award winning 'Shape Up Newfound'.

The TTCC is recognized throughout the State of NH as a model for rural recreation departments and has received a number of awards from the NH Recreation & Parks Association for outstanding programs and staff. In addition the Community Center is the sponsor for the Cub Scout program in the Newfound Region and the building is used by more than 20 local organizations for meetings, events and activities.

NH Marathon Finish Line

I want to thank all the staff and counselors of PLAY for making this summer a great one for my kids. This was their first camp experience and I'm so glad I sent them. Both boys were happily exhausted each night after camp. I must admit I was a little reluctant at first because it was such a large group of kids, but my fears were soon put to rest. The camp was so well organized and structured that I knew my little guys would be well cared for each day. I appreciate the flexibility to be able to drop them off early as needed for my schedule. They are in WOW Camp this week, and they absolutely love it. Thank you very much – they will be back next summer! - A Parent of Summer Campers
