

## **EPOXY FLAKE FLOOR RAFFLE TO BENEFIT TAPPLY-THOMPSON COMMUNITY CENTER**

### **BUILDING PROJECTS**

The Tapply-Thompson Community Center is a non-profit Recreation Department located in Bristol and serving the eight towns in the Newfound Lake Region. The Center was established in 1946 by two visionary men – Reverend A.B. Thompson and the first Director, Richard “Wink” Tapply. It was the dream of Reverend Thompson that a space be created in the former Methodist Church for youth. He believed that the community was in need of a safe place for the youth to gather and be involved in healthy recreational activities. Through his vision, and the enthusiasm and strong work ethic of “Wink” Tapply, his dream became a reality and the Center continues to serve youth and adults alike with after school programs, summer day camps, youth & adult sports programs, special events and so much more...

Flash forward 77 years to the current day and our much beloved building has seen it’s share of wear and tear. As with any old building there are always projects that need to be completed to keep it safe and welcoming! The TTCC Building committee has identified a number of key projects that need to be completed over the next year. They include new windows for the second floor to increase heating efficiency, painting of the steeple and front entryway, repairs to the handicap ramp and driveway repairs to name a few!! While we have an energetic group of volunteers we continue to need funds to do repairs and maintenance.

Board member, Jason Briand, of Lakes Region Epoxy Floors, has generously donated a standard epoxy flake floor system that can be used for a residential garage basement or small business up to 1000 square feet for a fundraising raffle. All proceeds will be donated to the TTCC for building projects. Only 100 tickets will be sold at \$250 each for a prize valued up to \$9,000. Sales will begin 12/15 and continue until all tickets are sold or April 1<sup>st</sup> – whichever comes first. To purchase a ticket and help the TTCC check out our website at [www.tccrec.org](http://www.tccrec.org) or give us a call at 744-2713.

We are so grateful to the generosity of Lakes Region Epoxy Floors for this amazing donation and hope you will consider buying a ticket.
